State Conference Presentation Guidelines:

22. Participants will give a 10-minute presentation at the State Career Development Conference, which should cover the five gold level projects. The presentation will be followed by a 5-minute question and answer period.
23. The presentation begins immediately after the introduction of the participants to the judge by the adult assistant.
24. Each participant may bring a copy of the project or note cards pertaining to the project and use as reference during the presentation.
25. Only visual aids that can be easily hand carried to the presentation by the actual participant will be permitted. The participant must set up the visuals without assistance. Wheeled carts, moving straps or similar items may not be used to bring visuals into the area. Set up time is included in the total presentation time. Participants must furnish their own materials and equipment. No electrical power or internet connection will be supplied. Alternate power sources such as small generators are not allowed. Sound may be used, if the volume is kept at a conversational level.
26. Materials appropriate to the situation may be handed to or left with judges in all competitive events. Items of monetary value may be handed to but may not be left with judges. Items such as flyers, brochures, pamphlets, and business cards may be handed to or left with the judge.
27. No food or drinks allowed.
28. Video may be shown during the presentation but are **not** to be included with the project when it is uploaded for competition.
29. Participants will not be able to use the hotel or convention center internet for their written event presentations, because that would involve asking someone else to help them with their equipment. (Refer to the presentation guidelines.) They may use an internet aircard or personal hotspot with their computer if the participants have one. But we caution that it could be difficult for participants to receive and maintain a connection due to so many people using cell phones while at the conference. If they lose connection, they will not be given additional time. Our suggestion is for anything that participants might want to reference during the presentation, to save it directly onto the computer.
30. Special consideration during the evaluation will be given for special needs students that are unable to complete the above guidelines. Such a request needs to be communicated by the chapter advisor to the Michigan DECA State Director.
31. Awards will be given to the outstanding projects and will be evaluated using the Outstanding Gold Project Evaluation form, which can be found on Michigan DECA's website at www.mideca.org
32. Projects receiving less than 75 points will not advance on to the International Conference.
